

# Positive and Negative Activation Scale

**(PANAS as developed by the University of Lincoln)**

For each of the statements below, please place a cross in the box which most accurately describes your level of agreement with how your dog behaves in general in this situation. Please consider whether your dog's behaviour is of similar intensity and occurs as frequently as described. For example, if in item 2 your dog always becomes a little excited when it is about to go for a walk, you would mainly agree with the statement. If your dog has never encountered the situation and you are unable to predict the behaviour, please leave blank.
